October 4, 2009

Dear Reviewer,

This letter clarifies an instruction for the review of the application materials. During the October 1 training at the Alliance for Aging, the instructions stated that there is a one-page limit for answers to outcome measures in the application. This is incorrect. There is no page limit in the outcome measures section and unlike the rest of the application, it can be typed single-spaced.

The correct version of the training Power Point is included in the DVD enclosed with this reviewer package. The video has also been posted to our website at <http://www.allianceforaging.org/rfp2009.html>

To summarize regarding page limits in the responses that you will review-- see pages 17, 18 and 19 of the Power Point:

1. The Older American Act Service Delivery System (Subsection 3) is limited to 8 double spaced pages.
2. The Quality Assurance (Subsection 4) is limited to 2 double spaced pages.
3. The Service Grid (Subsection 5) is limited to 2 double spaced pages.
4. The Outcomes section has no page limit and can be typed single space.

Please do not hesitate to send us your questions at

OAARFP2009@elderaffairs.org

Thank you again for helping us with the review of the responses to our solicitation under the Older Americans Act.
