

### **New or Missing Zip Codes**

Even though every effort is made to include all of the zip codes in the PSA, there could be some zip codes that have not been included in this RFP. One reason for a missing zip code could be due to newly created zip codes. Any missing zip codes for Miami-Dade or Monroe Counties are considered to be an oversight.

If a potential provider wishes to apply to provide services in an unlisted zip code, include the missing zip code at the bottom of the list of zip codes (Table 3 of Appendix VIII) in the proper section of the PSA (Monroe County, Miami-Dade County: The Beaches, North, Central, or South) and place a check mark under the column "Plan to Serve."
